ON YOUR FIRST VISIT

Choose your tour

Quick tour · 3 tips

Set the desk and lighting, put down a sheet and pick up a drawing tool.

Full tour · 20 steps

Follow the highlighted controls for gestures, marker building, blending, organizing sheets and presenting your work.

Just draw

Start on your own whenever you like. Open Help in the spinning X menu to return to the tour.

OPEN THE FREE STUDIO

Make a color study.

Use your phone, tablet or computer. Try OLO, Copic and Ohuhu colors on an interactive desk.

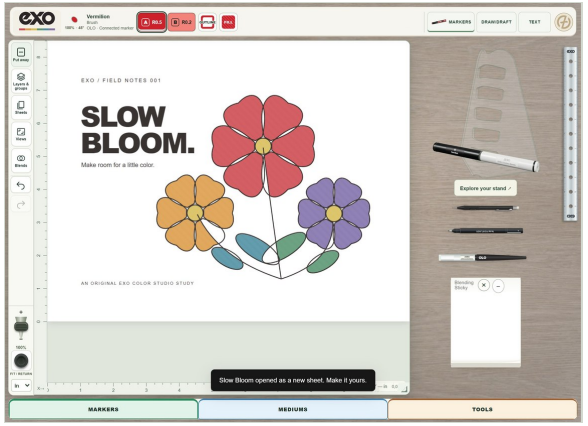

exo-color.com/studio

Sign in to sync your sheets, markers and desk settings across devices.

EXO COLOR STUDIO

Make room for color.

A field guide to your digital drawing desk.

01 DESK & LIGHT

Set the scene

Choose a desk

Try a wood finish. Reopen this control under TOOLS → PRESENTATION.

Set the light

Try spot, flood or linear light. Adjust white temperature or use RGB.

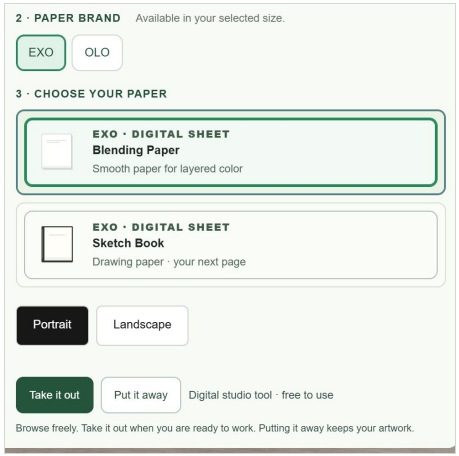

Check your artwork

Neutral check lets you view the artwork without the simulated light.

Desk and lighting controls

02 PAPER & SURFACES

Put down a sheet

Choose a medium

Open MEDIUMS and browse papers by size and brand, or choose a fabric.

Take it out

Preview the surface first. Choose Take it out when you're ready to draw on it.

Make some space

Drag the green divider to resize the tray. Pinch to zoom the sheet.

Paper stays editable in Sheets

03 MARKERS & DRAWING

Make your mark

Pick a tool

Open MARKERS for saved colors, or choose Pencil or Pointliner in DRAW/DRAFT.

Flip and rotate

Right-click or tap with two fingers to flip. Scroll or move two fingers up or down to rotate.

Try a blend

Use the EXO Color Wheel to compare neighboring colors across all three brands.
